

[illegible]

- IDEALLY SUITED
- OCCASIONAL USE
- UNSUITABLE

## ASK THE QUESTIONS...

- 1) What material is the customer cutting/drilling?
- 2) Type of machine?
- 3) How much to be cut/drilled?

## REMEMBER...

- 1) High quality blades/cores are actually cheaper to use because they cut quicker and last longer
- 2) A dust control water tank should always be used with petrol disc cutters

## COATED & BONDED ABRASIVE GUIDE

\*BONDED ABRASIVE EXPIRY DATE EXPLAINED

EXAMPLE: In the image to the left, of a centre ring, it is marked V07 / 2021, which denotes that the disc is due to expire in the third quarter of 2021.

The annual quarters are marked as follows:

V01 = Quarter 1 (January to March)

V04 = Quarter 2 (April to June)

V07 = Quarter 3 (July to September)

V10 = Quarter 4 (October to December)

It is advised that discs are used prior to the date shown on the centre ring and must be discarded once this date has passed.

### IMPORTANT

Failure to store abrasive products correctly will result in the deterioration of the product, thus reducing its shelf life and potentially rendering the product unsafe.

Always ensure that the product is stored in a dry, frost free environment and not exposed to dampness, directly to water, excessive heat or direct sunlight.
