#### DESCRIPTION:

Premium wood cutting TCT blades for use on popular plunge saws. Manufactured using high grade carbide teeth for long life and precision hardened steel plates for maximum stability.

#### FEATURES:

ATB +5°

#### MACHINE SUITABILITY:

TCT Plunge saws.

#### USER TIPS:

- Ensure that the cutting depth of the machine is set correctly for the material being cut
- Do not force the cut. Let the blade and machine do the work
- Always ensure that the blade is suitable for your machine type. Using a blade designed for another machine type
- Make certain that the blade is suitable for the material being cut
- The higher the tooth count, the cleaner the cut and the lower the tooth count, the faster the cut.
