ROOFING BATTEN	<input type="checkbox"/>
STAINLESS STEEL	<input type="checkbox"/>
SOFTWOOD	<input type="checkbox"/>
TIMBER DECKING	<input type="checkbox"/>

#### DESCRIPTION:

The ST-STEEL TCT blades are designed with an anti-kickback tooth to offer a smooth and fast cut through materials such as aluminium, steel profiles, sheet metals and construction steel.

#### FEATURES:

Super thin, cold cut - anti-kickback design - TCG +0°

#### MACHINE SUITABILITY:

Metal cutting hand held saws such as the Makita BCS550.

#### USER TIPS:

- Ensure that the cutting depth of the machine is set correctly for the material being cut
- Do not force the cut. Let the blade and machine do the work
- Always ensure that the blade is suitable for your machine type. Using a blade designed for another machine type could be unsafe
- Make certain that the blade is suitable for the material being cut
- The higher the tooth count, the cleaner the cut and the lower the tooth count, the faster the cut.

#### PRODUCT DETAILS:

PART NO.	DIMENSIONS
GT11040	136 x 1.5 x 1.2 x 20mm 30 teeth
GT11041	150 x 1.5 x 1.2 x 20mm 32 teeth
GT11042	165 x 1.5 x 1.2 x 20mm 40 teeth

#### PACKAGING DETAILS:

Full colour cardboard box.
